### **EXPECTATIONS FOR WRITING**

There are no writing expectations in this course only tests.

### **ADDITIONAL COURSE INFORMATION**

The sections below are optional but recommended to provide additional clarity to students regarding the course – please delete if not relevant.

### **ATTENDANCE AND PARTICIPATION EXPECTATIONS**

The big advantage of this is that you can arrange your work to suite your own schedule. This means that if you are a night owl you can begin your work at 1 am if that is a good time for you.

The disadvantage is that there is no compulsory time when you must attend classes or participate in any session except when you take the scheduled tests which allow you considerable leeway as when you can write them.

Therefore, it is strongly recommended that the beginning of the semester you draw up your own timetable and keep as closely to it as possible. To help you with this you will be provided with weekly course modules and other materials, including audio files, that allow you to better organize your time.

Please treat these components of the course as you would and in-class course by setting aside either two 75-minute or three 50-minute sessions and work through these basic course materials. Then set aside another 12 hours per week to complete the assigned readings, note taking, etc. In this way you ought to be able to complete the course without difficulty and do well in the tests.

### **CONDUCT**

As members of the University community, students, employees, and academic staff are expected to demonstrate conduct that is consistent with the University of Calgary Calendar, the Code of Conduct and Non-Academic Misconduct policy and procedures, which can be found at:

<https://www.ucalgary.ca/pubs/calendar/current/k.html>

### **GUIDELINES FOR ZOOM SESSIONS**

Video conferencing tools such as Zoom may used as supplementary learning experiences during the course. For those of you who are unfamiliar with Zoom it is a video conferencing program

that will allow us to meet at specific times for a “live” video conference, so that we can have the opportunity to meet each other virtually and discuss relevant course topics as a learning community.

To help ensure Zoom sessions are private, do not share the Zoom link or password with others, or on any social media platforms. Zoom links and passwords are only intended for students registered in the course. Zoom recordings and materials presented in Zoom, including any teaching materials, must not be shared, distributed or published without the instructor’s permission.

The use of video conferencing programs relies on participants to act ethically, honestly and with integrity; and in accordance with the principles of fairness, good faith, and respect (as per the Code of Conduct). When entering Zoom or other video conferencing sessions (such as MS Teams), you play a role in helping create an effective, safe and respectful learning environment. Please be mindful of how your behaviour in these sessions may affect others. Participants are required to use names officially associated with their UCID (legal or preferred names listed in the Student Centre) when engaging in these activities. Instructors/moderators can remove those whose names do not appear on class rosters. Non-compliance may be investigated under relevant University of Calgary conduct policies (e.g Student Non-Academic Misconduct Policy). If participants have difficulties complying with this requirement, they should email the instructor of the class explaining why, so the instructor may consider whether to grant an exception, and on what terms. For more information on how to get the most out of your zoom sessions visit:

<https://elearn.ucalgary.ca/guidelines-for-zoom/>

If you are unable to attend a Zoom session, please contact your instructor to arrange an alternative activity for the missed session (e.g., to review a recorded session). Please be prepared, as best as you are able, to join class in a quiet space that will allow you to be fully present and engaged in Zoom sessions. Students will be advised by their instructor when they are expected to turn on their webcam (for group work, presentations, etc.).

Zoom class sessions may be recorded for the purposes of supporting student learning in this class – such as making the recording available for review of the session or for students who miss a session. Students will be advised before the instructor initiates a recording of a Zoom session. These recordings will be used to support student learning only and will not be shared or used for any other purpose.

### **COURSE EVALUATIONS AND STUDENT FEEDBACK**

Student feedback will be sought at the end of the course through the standard University Student Ratings of Instruction (USRI) and Faculty course evaluation forms. A midterm evaluation may also be included to provide students an opportunity to provide feedback, for the instructor to adjust their approaches to teaching and learning, and to continuously improve the course. Students are welcome to discuss the process and content of the course at any time with the instructor.
